Track Wheels Overview

Molycop (formerly Comsteel), have been developing and innovating new products since 1918, to meet the needs of the Australian Industry and Rail Industries. Developing unique solutions to meet customers needs now and into the future.

Minimising wear and maximising performance with high hardness and improved fracture toughness. Molycop continues to research and develop industrial wheel products for applications in unique situations.

Micro Alloy, clean steel technologies combine with tailored heat treatment to produce the right solution for safe and reliable equipment installations. Molycop understand what it takes in Steelmaking and manufacturing to arrive at the quality required for the demanding applications.

The leading supplier of Industrial Wheels

- Forged and rolled wheels
- Dual flange and single flange designs to meet customer specifications
- Proprietary and standard material grades available
- Comsteel Micro Alloy B and C offer superior through hardness
- Improved fracture toughness
- Improved tread life
- Superior resistance to surface and subsurface Rolling Contact Fatigue.

If you're interested in exploring Molycop's products and services, we're here to help.
